3 PLO factions meet in Algiers

ALGIERS (Agencies) — The Palestine Liberation Organisation's (PLO) three largest factions met in Algeria Tuesday for reconciliation talks that would denote the fate of efforts to end four-year rift in the movement, Palestinian officials said. The talks would also determine if the Palestine National Council (PNC) will meet as planned on April 20 in Algiers, said the officials. The officials said the talks were expected to drag for a few days until the three groups agree to political, organisational and financial reforms in the PLO charter. The meeting grouped Khalil Wazir, deputy commander of the PLO forces, George Habash, Secretary-General of the Popular Front for the Liberation of Palestine, and Nayef Hawatmeh, leader of Democratic Front for the Liberation of Palestine.

Kohl endorses Mideast conference

BONN (AP) — Chancellor Helmut Kohl, meeting with Israeli President Chaim Herzog on Tuesday, pledged West German support for an international Middle East peace conference. Dr. Kohl, in a luncheon speech, said a conference of all major Middle Eastern parties is the only way to overcome conflict in the region. 'We consider that an international conference aimed at peace in the Middle East is currently the only road to negotiations," the Christian Democratic chancellor said. Officials said the issue of West German weapons sales to the Middle East was not mentioned during Mr. Herzog's meeting with Dr. Kohl. They said Dr. Kohl pledged to urge Bonn's Common Market partners to play a greater role in Middle East peace efforts.

UNITED NATIONS (Petra) Jordan officially protested to the United Nations Security Council on Tuesday over Israel's violation of human rights in the occupied Arab territories. Jordan's protest was contained in an official memo presented by Jordan's Permanent Representative to the U.N., Abdullah Salah. The memo said Israel seized 18,000 dunums on the occupied West Bank in January to build Israeli settlements there. Such practices by the Israeli authorities constitute a flagrant encroachment upon the international law, the memo said.

Majali appointed acting defence minister

AMMAN (Petra) — A Royal Decree was issued on Tuesday appointing Deputy Prime Minister Abdul Wahab Al Majali as defence minister during the absence of Prime Minister and Defence Minister Zaid Rifai. Another Royal Decree was issued endorsing the new contractors law of 1987. The new law sets out the basis governing the classification of contractors and the fees which should be collected from each category.

Abdali has 20,000 new phone lines

AMMAN (J.T.) — Director General of the Telecommunications Corporation (TCC) Mohammad Shahid Ismail said on Tuesday that the TCC had completed a project whereby 20,000 telephone lines in Abdali area had become available and were put into actual service. In a statement to the Arabic daily Al Ra'i, Mr. Ismail said anyone from Abdali, Shmeisani, Jabal Hussein and Sports City areas wishing to have a telephone could have it immediately without having to wait for his turn.

Fahd to visit Paris

PARIS (R) — Saudi Arabia's King Fahd will visit France next week at the invitation of President François Mitterrand, the president's office said Tuesday. The king will make the official visit on April 15 and 16 but an official at Saudi Arabia's Paris embassy said King Fahd's programme had not yet been final-

Ministry conducts study on hospitals

AMMAN (J.T.) - Health Minister Zaid Hamzeh said Tuesday that the Health Ministry had started work on a detailed study aimed at identifying the actual costs of commissioning and maintaining Ministry of Health hospitals. Such a study, the first of its kind in Jordan, aims at identifying the actual cost of each government hospitals separately, the minister said. In a statement to the Arabic daily Al Ra'i, Dr. Hamzeh said the study would contribute effectively to defining the budget of each hospital separately and help the ministry to identify all items of expenditure.

King heads for talks with Thatcher after meeting Martens in Brussels

Combined agency dispatches from the community to initiate

BRUSSELS — His Majesty King Hussein left Brussels for London after holding talks with Belgian Premier Wilfried Martens and Foreign Minister Leo Tindemans and other Belgian officials on efforts for a just and comprehensive peace in the Middle East through the convening of an international peace conference.

In London, the King was ex-pected to hold talks with Prime Minister Margaret Thatcher and other British officials on the ongoing efforts for convening the proposed conference.

The King's talks were expected to give a new impetus to efforts for peace in the Middle East amid a flurry of diplomatic moves within and outside the region.

Mr. Tindemans told reporters after Tuesday's talks that Belgium, the current president of the 12-nation European Community (EC), had received permission

contacts with Syria on the confer-

The EC froze ministerial contacts with Syria as part of largely symbolic sanctions against Damascus after Syria was implicated in an alleged plot to blow up an Israeli airliner at London airport.

Mr. Tindemans said the King briefed Mr. Martens on his visit to Damascus last week as part of his efforts to clear the way towards convening the proposed international conference on the Middle East.

The Jordan News Agency, Petra, said the King explained to the Belgian leaders Jordan's stand towards the Arab-Israeli conflict and efforts that the Kingdom had launched towards convening the called-for conference under U.N. auspices with the participation of the five permanent members of Security Council and all parties involved in the Middle East con-

Jacques Delors. Mr. Tindemans later told reporters Syria was showing flex-

ambassador to Jordan.

tribution towards efforts for con-

vening the conference, Petra

The King first held a tete-a-tete meeting with Mr. Martens. The two leaders were later joined by

Chief of the Royal Court Marwan

Syrians deploy Mr. Peres, the highest-ranking Israeli official to visit Spain since the two countries established relations on Jan. 17 of last year, had lunch with a group of 30 intellectuals in Madrid prior to leaving for Peres. BEIRUT (Agencies)—Scores of day found scenes of devastations and sequelors.

BEIRUT (Agencies) — Scores of day found scenes of devastation sprian troops marched into the ban-red Shatila Palestinian camp Rubble and debris blocked in Beirut on Tuesday in a bid to quell five months of fighting in the "camps war," witnesses

quoted by news agencies said.

Dozens of Shatila residents clapped as more than 50 soldiers brandishing assault rifles and rocket-propelled grenade launchers walked past Shi'ite Amal militia siege lines into the small A senior Syrian officer, Col-onel Abdul Salam Darghistani,

led the men into Shatila's muddy alleyways, where he and other officers had already mapped out four positions. More than 7,000 Syrian troops

were sent into west Beirut in February but had not intervened to halt Syrian-backed Amal's conflict with the Palestinians. Fighting in the "camps war" has killed nearly 900 people since September and that, 3.200 resi-

dents of Shatila also suffered critical shortages of food, water and medicine since Amal blockaded the camp on Oct. 29. The Syrian reconnaissance of Shatila was agreed at a meeting between Syrian observers, Amal officials and representatives of

the pro-Syrian Palestine National Salvation Front (PNSF).

Beirut radio stations said the accord provided for Syrian troops to deploy at four points around Shatila and to occupy at least one position at nearby Bouri Al Barajneh camp to guarantee freedom of movement for the refugees. Reporters who walked about

lanes muddied by water from broken pipes and littered with mounds of reeking garbage. Refugees stared at the Syrian team from shell-pocked houses (Palestinians struggle to survive,

Rescue workers were due to evacuate wounded from Bourj Al Barajneh, home to about 12,000 Plans for the evacuation were

made after Kuwaiti relief supplies reached Shatila on Monday despite sniper fire which killed one man and wounded two others. Political analysts said the latest Syrian moves indicated that

Damascus, which supported Amal, was determined to end the bruising "camps war" in Beirut and South Lebanon. The said the presence of Syrian

troops at camp entrances would lift the blockades which Amal has imposed since October. Shatila and Bourj Al Barajneh

were reported calm overnight and Tuesday. A senior Amal official, Haith-

am Jumaa, responded cautiously earlier when asked about a possible Syrian deployment, saying it would occur "when the Palestinians withdraw totally from all areas east of Sidon."

"Then Amal will lift its military siege," he said. "Amal has agreed to a total ceasefire, to lift the food blockade and to allow all humanitarian measures — but the Syrian deployment will come only with the withdrawal of guerrillas 75 metres inside Shatila on Tues- east of Sidon."

were expected to discuss U.S. Reagan delays American move into new embassy in Moscow

WASHINGTON (Agencies) — President Ronald Reagan announced Tuesday that American diplomats would not occupy the new embassy in Moscow until he is sure that it is secure from Soviet eavesdropping. And he said that the Soviets would not be allowed to move into their new office tower on a Washington hilltop until the Americans moves into the Moscow facility. "The United States will not

in Moscow unless and until I can be assured that it is safe to move into a secure embassy environment," he said.
"Likewise, the Soviet Union will not be allowed to occupy

occupy our new embassy building

their new embassy in Washington until a simultaneous move by both countries is possible." He said the examination of

U.S. security in Moscow would include an evaluation of the new embassy building to determine "whether it will ever be secure or whether it may be necessary to destroy and rebuild it."

In a related move, the United States accused the Soviet Union Tuesday of "a breach of the norms of diplomatic conduct" by infiltrating the U.S. embassy in Moscow with alleged spies and listening devices.

The formal protest was filed in the Soviet capital by Ambassador Jack Matlock and announced at the State Department by Charles Redman, the chief spokesman. "I don't think there are any doubts what our concerns are," Redman

Fire causes damage to planes on carrier near Oman

WASHINGTON (Agencies) — A small fire aboard the U.S. aircraft carrier Kitty Hawk in the Arabian Sea caused minor infunies and extensive water damage to several airplanes, the navy has said.

The navy, responding to questions submitted by a reporter, said the fire occurred on March 31 while the carrier was anchored in the northern Arabian Sea, off the Omani Island of Al Masirah.

The fire erupted in an empty compartment or "void space" off the starboard side of the main hangar deck, an area that was supposed to be free of any supplies or material, the navy said. Two sailors were treated and released for minor smoke inhalation after the blaze, which did not cause much damage, the service

The blaze touched off some automatic sprinkler systems, and the water in turn caused extensive damage to six nearby aircraft that had been parked with their cock-

The navy said it had no estimate as yet for the damage caused to the airplanes -- two A-7's and three A-6's, both ground-attack jets, and one S-3

The blaze apparently involved some type of "oily substance," but the cause of the fire is still under investigation, the navy

Meanwhile the United States will keep an aircraft carrier battle group in the Indian Ocean near Iran for the foreseeable future to reassure Arab states in the tronbled Gulf region.

The officials, who asked not to be identified, also said Kuwait had turned down, at least temporarily, a U.S. offer to escort its tankers in and out of the Gulf, where Iran and Iraq have attacked ships in their six-year old war. The Kitty Hawk and its battle group of 11 support ships current-ly are patrolling the northern

Arabian Sea. The Kitty Hawk was scheduled to move from the Indian Ocean to the Mediterranean early this month, but Iran's recent stationing of Silkworm auti-ship missiles near the mouth of the Gulf prompted Washington to extend the Kitty Hawk's tour, the offi-

cials said.

They said plans are to send another carrier, probably from California, to replace the Kitty Hawk when she leaves the northern Indian Ocean.

The Kitty Hawk, with more than 80 jet fighters, bombers and electronic aircraft, backs up recent Reagan administration warnings to Tehran against using the Chinese-made Silkworm missiles against tanker shipping. The administration has said re-

peatedly that Washington will not allow Gulf oil shipments to Japan, Western Europe and the rest of the world to be cut off. | remain in Ivory Coast.

Kuwait reportedly wants foreign flags on its ships in Gulf war zone NEW YORK (R) - Kuwait some of the tankers so they would

wants to protect some of its ships in the Gulf war zone by having them fly the flags of the United States and the Soviet Union, the New York Times Tuesday re-

Former Chadian leader in **Abidjan**

ABIDJAN (R) — Former Chadian leader Goukouni Oueddei flew here for talks on the Chadian conflict with Ivorian President

Felix Houphouet-Boigny.

- He arrived via Bamako on what is believed to be his first trip out of Algeria where he settled last month after years of exile in Tripoli, the Libyan capital. Speaking to Ivorian television

at Abidian International Airport where he was met by four government ministers, including Foreign Minister Simeon Ake, Mr. Goukouni said: "I came to search for a solution to the Chadian drama with President Houphouet-Boigny, who is known as the wise man of Africa, and once this is done, I want to go home."

Foreign reporters were not allowed into Abidjan airport's VIP lounge where Mr. Goukouni was interviewed by Ivorian televi-

Diplomatic sources say they expect the Ivorian leader, a staunch supporter of Chadian President Hissene Habre, to press Mr. Goukouni to publicly break with Libya.

His Popular Armed Forces (FAP) defected last year and were actively involved, along-side President Hissene Habre's regular army, in a recent rout of Libyan troops. But Mr. Goukoum himself,

whose relationship with Libya remains unclear, has yet to follow the example of most other rebel leaders who have returned home. Some were given top government Mr. Goukouni, a former presi-

dent of Chad ousted by Mr. Habre in 1982, has been negotiating in Algiers conditions for his return with officials of the N'Djamena government. Mr. Habre has said Mr.

Gonkouni would be given a hero's welcome if he returned home but Chadian Information Minister Moumine Togoi Hamidi acknowledged last week that bitterness remained between the two men. It was not immediately known

how long Mr. Goukouni would

Canadian firm pleads guilty to Iran arms bid WASHINGTON (AP) - A to provide Iran with the "end-

Canadian export form has pleaded quilty to conspiring to sell \$30 million in U.S. M-60 tank engines and parts to Iran by making it appear Pakistan would

Levy Auto Parts of Canada, headquartered in Toronto, admitted in U.S. district court that it conspired with a Pakistani middleman to arrange the sale, in violation of U.S. export control laws. The sale, however, never took place.

The conspiracy lasted from about April 1981 to March 1982, according to Assistant U.S. Attorney Joseph J. Aronica. He told U.S. district Judge Albert V. Bryan Jr. in suburban Alexandria, Virginia, that the Levy Firm knew the State Department would not approve the sale to Iran and conspired to make it seem that Pakistan would receive

Mr. Aronica said the sale fell through because Pakistan refused user" certificate that would have identified Pakistan as the recipient of the engines and parts. The firm pleaded guilty to a one-count conspiracy violation and was fined the maximum \$10,000. The company also

agreed to pay \$4,000 for the cost of the investigation. The company already had re-ceived an administrative suspension that prevented it from hand-ling U.S. Defence Department ousiness for 2½ years.

Charges were dropped against two officials of the firm — Morris Levy, who resigned as executive vice president as part of the agreement, and Al Raskin, who already had retired as general

Mr. Aronica told the court that during the period of the conspira-cy, "export licenses for defence articles including M-60 tanks and tank parts would not be approved for the sale and export to the Islamic Republic of Iran.'

Majali, Judeh hold talks with Kuwaiti delegation

AMMAN (Petra) — Deputy attended by the Cabinet's Secret-Prime Minister and Minister of State for Prime Ministry Affairs Abdul Wahhab Majali on Tuesday held talks with a visiting Kuwaiti delegation on means to improve bilateral relations in all fields of cooperation.

The delegation, headed by secretary general of the Kuwaiti cabinet, Khaled Ahmed Al Hamad, were also received by Minister of State for Parliamentary Affairs Sami Judeh who discussed with them scopes of cooperation between the two countries and ways of improving bilateral ties. Both meetings were ary General Sa'd Eldeen Juma'a.

Later in the day, the delegation met with president of the legislation bureau at the Prime Ministry Eisa Tammash. The two sides discussed prospects of increasing the scope of cooperation in legislation and administrationrelated affairs.

The delegation were also briefed by the economic councellor at the Prime Ministry Fayez Tarawneh on the administrative systems employed at the Prime Ministry regarding the economic sectors in the Kingdom.

Anani suggests measures to reactivate the economy

By Sa'ad G. Hattar Jordan Thues Staff Reporter

AMMAN - A prominent Jordanian economist has painted a bright picture of the country's economy but has cautioned that unless prompt measures are taken to reactivate the business climate the current situation could well be aggravated.

Dr. Jawad Anani, president of the Royal Scientific Society (RSS), stressed that Jordan's economic growth rates over the past three decades were generally positive, except for certain phases characterised by low growth as a result of various external factors.

Jordan's present situation. therefore, should not be looked upon as an exception to the rule as overall the Kingdom's growth has been continuing at a stable rate, said Dr. Anani in a lecture he delivered upon an invitation from the Lions Alumni Club.

He underlined the need to promote economic administration and to depend primarily on domestic resources in an effort "to bring the economic cycle back on track." Promoting selfsufficiency and employment, coupled with moves to generate an ncrease in exports should be the focus of the government's economic policies, added Dr. Anani, who has held various ministerial

boundaries of municipalities.

gave no details about the talks.

NEWS IN BRIEF

AMMAN (Petra) — Foreign Minister Taher Al Masri Tuesday

praised Chinese-Jordanian relations describing them as both friendly and strong. In a cable he sent to the foreign minister of

the Peoples Republic of China on the tenth anniversary of

Jordan's keenness to make every possible effort to bolster ties of

cooperation between the two friendly countries. Mr. Masri added

that Jordan greatly appreciates China's active contributions and

support for just Arab causes as well as the international efforts,

AMMAN (Petra) — A Royal Decree was issued Tuesday

endorsing the law of appropriation, recently passed by the Upper and Lower Houses of Parliament. The new law defines the bases;

of land and property appropriation as well as means of solving

land disputes between owners. Articles in the law provide for

means and methods of paying tax to the treasury on appropria-

tion. Another decree issued on Tuesday endorsed a regulation

concerning fees for road advertising signs posted outside the

AMMAN (J.T.) - Speaker of the Lower House of Parliament

Committee prepares for seminar on Agaba

AQABA (Petra) — A preparatory committee entrusted with

making the necessary arrangements to hold a seminar on Aqaba,

the past and the present, to be held later this month under the

patronage of His Royal Highness Crown Prince Hassan met on

Tuesday under the chairmanship of President of the Agaba

Region Authority Bassam Qaqish. The committee discussed final,

arrangements for holding the seminar and agreed who will take

part in the seminar and the working papers to be discussed. The

working papers deal with transport, ports, tourism, science and technology and trade and industry.

Nadim hospital to treat ministry patients

MADABA (J.T.) — The Health Ministry has reached agreement

with the Al Nadim Hospital in Madaba to transfer any patients which cannot be accommodated at the government hospital in the city. The agreement is in line with the Health Ministry's new

policy to utilise empty beds in private hospitals and at the same time to ease pressure on government hospitals, in accordance with

a recently introduced health scheme covering all citizens. The

150-bed Al Nadim Hospital was mangurated by His Royal

Highness Crown Prince Hassan on March 25. The JD 2.5 million

hospital has three operating rooms and four outpatient clinics as

well as a laboratory, an X-ray unit and other essential facilities.

Jordan attends technical talks on industry

AMMAN (Petra) — Jordan is taking part in the meetings of the

Arab technical consultative committee on industry which opened

in Baghdad on Tuesday. Dr. Akram Karmoul, advisor at the

Ministry of Planning, is representing Jordan at the meeting which

will discuss subjects on the agenda of the Arab Organisation for

Industrial Development, due to be held in Tunis in 1989. Among

the main topics, he said, are inter-Arab trade exchange, market-

ing the products of joint. Arab projects, developing a pan-Arab ransport system and laws on industrial investment.

AMMAN (Petra) — The general unitary governor on Tuesday, ratified a military court ruling which sentenced Abdullah Abdul-

lah to three and a half years imprisonment and fined him JD 350

Decree okays land appropriation law

Fayez meets with Iraqi ambassador

ing imports, the government should support exports and that the private sector should shoulder its responsibilities side by side

with the government. Technical training, research

Dr. Anani said that priority should be given to technical train-ing and scientific research which would ultimately reduce production costs and improve quality. Science and technology, however, can not be acquired without a political decision in that regard,

The RSS president called for the introduction of incentives for the private sector with regard to employing private capital. The private sector, he said, should impose its demands on the government instead of waiting for the government to furnish them with vestment opportunities.

The lecture, which included a dinner at the Marriott Hotel, was followed by a debate in which members of the audience argued certain points in Dr. Anani's presentation, especially capital fight, turning Jordan into a free zone, government restrictions on the private sector and unemploy-

Jaber details

U.N. commission

NAIROBI (Petra) - Minister of

Municipal and Rural Affairs and

the Environment Yousef Ham-

dan Al Jaber Tuesday said that

the Palestine question and the

Arab-Israeli conflict are the ma-

jor preoccupations of Jordan

which shoulders a special respon-

sibility towards its kinsmen in the

occupied Arab territories.
Addressing the 10th session of the United Nations Commission

on Human Settlements which be-

gan its meeting in Nairobi on Monday, Mr. Al Jaber said Jor-

dan has been extending financial and moral support to the people

in the occupied Arab territories to enable; them to stay in their

homologicand, to withstand Israeli plans aimed at uprooting them and confiscating their land-

for building Jewish settlements.

the West Bank in June 1967, the

Israeli occupation authorities

have seized 2,738,000 dunums of

Arab land in the occupied West

Bank, the minister continued.

The Israeli authorities also built

195 settlements and demolished

and sealed more than 15,000

houses belonging to Arab citizens in the occupied Arab territories,

he noted. Mr. Al Jaber called on

the international community to

extend every possible support to

the inhabitants of the occupied

Outlining Jordan's contribu-

tion towards the human settle-ment programmes and activities,

Mr. Al Jaber said that a memor-

andum of agreement between

Jordan and the committee had

been signed and had been in force

since the beginning of 1987. However, the minister noted that

Jordan is still waiting for the

executive steps that are required

Arab territories.

Crowds of people lined the

AMMAN — The Arab Organisation for Administrative Sciences (AOAS), an affiliate of the Arab. League, has dismissed nearly half cess was done without regard to of its staff citing financial tron-nationalities, sex or religion. He bles. The affected employees described the decision as "arbitrary, shocking and irresponsible."
The 17-yeaer-old organisation

took the decision on Thursday, after a special committee was established to look into "the status of employees."

The 32 employees who were laid-off were given the dismissal notice on Saturday, effective

ser Sayegh told the Jordan
Times that he had no choice but to dismiss the employees in column to the sacked comments of the sacked commen for the organisation to survive. The organisation is financed by contributions from Arab states. "We had to choose between keeping the staff without being able to function or cutting the staff and remaining in opera-tion," Mr. Sayegh said. "If I hadn't done that," he added. "I wouldn't have been able to pay salaries to my staff for two

Mr. Sayegh said that he opted to dismiss the 32 employees white solve the problem. Then all of a the organisation was still able to afford severance pay and payments for leave which had not been taken. "Had we waited any longer, they would have been laid-off without their dues, including social security."

Mi. Sayegh said that of all Arab league member states, only Jordan and Saudi Arabia have fulfilled their financial commitments to the organisation this year. "So far, we have received only 15 per cent of the pledges."

The organisation's staff is

bound by special labour regulations different from those in Jordan or other league member ing such financial problems states. Laid-off employees told should have refrained from exces-the Jordan Times they had filed a sive and unnecessary spending." protest regarding their case with the Audit Bureau here.

Sandi national, the decision was taken after a special committee was established to assess the staff and determine those who would have to be dismissed.

He said that the selection proadded, however, that the organisation did not dismiss any of the staff appointed by member states.
"We only dismissed those who were contracted by us here," he

The organisation, he added. took other measures including reducing expenditure and urging Arab states to fulfill their financial commitments. 'These steps were taken to enhance the orga-

One of the sacked employees told the Jordan Times that the decision was "a classic case of bad management. "How come they realised they have financial problems only this week?" she asked. According to her account, following the organisation's last council conference two weeks ago — during which Mr. Sayegh was re-elected as director general — "we were told the organisation had some financial problems."

"Two days later, a committee was established to discuss ways to sudden we found ourselves on the street. This cannot be justified on any grounds," she said. "The irony," she continued, "is that it was done by the very organisation which was established to promote excellent managerial practices in the Arab World."

'Costiy conference'

Criticising the organisation's management, another employee interviewed by the Jordan Times blamed the erganisation's spending policies which he described as "irresponsible." "I think any organisation hav-

Targeting Palestinians

AS THE U.S. government plans to deport seven Palestinians accused of belonging to the Popular Front for the Liberation of Palestine (PFLP), including a Kenyan-born wife of one of them, we witness once again people "living in the land of freedom" harassed because of their origin and beliefs. Being an Arab in the U.S., a Palestinian in particular, has become practically a crime. Some Americans, spurred by a relentless drive to distort the Arabs' image, have made it appear that all Arabs are "terrorists" and pose a potential threat to the internal security of the U.S.

The deportation of these alleged criminals is not for any terrorist activity they did or plan to do. The U.S. government wants them out of the country because of their membership of a Palestinian guerrilla group and for distributing this group's literature which "advocates world communism." How their activities pose a threat to U.S. security remains a mystery.

A lengthy FBI investigation failed to turn up the slightest bit of evidence of any unlawful activity on the part of these people, and they have only been charged on technical violations of immigration laws. However, the U.S. administration has been using the provisions of the Immigration and Naturalisation Act of 1952 to justify its actions. The act, also known as the McCarran Walter Act, was enacted at the height of the anti-communism hysteria during the McCarthy era. It enables the government to deport immigrants, suspected of or advocating views labelled as communist, for seeking to overthrow the

Even some Americans, as noted in a Los Angeles Times editorial on April 2, have objected to these arrests on the grounds that they violate the first and fifth amendments to the U.S. constitution.

Palestinians in the U.S. and many Arab Americans are involved in non-violent activities to air their beliefs and their need for an identity. Apparently, some people in the U.S. administration have decided to target individuals supporting Palestinian rights or challenging American policy in the Middle East, charging them with terrorism. Last October, Arab-American Anti-Discrimination Committee (ADC) activist Alex Odeh was murdered. Many others, Arab or otherwise, supporting Palestinian rights, from California to Massachussetts, have become targets for slander and abuse. Harassing people of Arab origin or supporting Arab causes will not stop the Palestinian people from asking for their rights. The arrest of these nine individuals has only meant that the U.S. administration has once again kowtowed to those organisations waging a campaign against the Arabs in general, and Palesti-

ARABIC PRESS EDITORIALS

Al Ra'i: Prince advocates reforms

PRINCE Hassan Monday called on educationalists to lay down a clear and integrated concept of an educational policy in Jordan, and stressed that this concept is the country's means to deal with the basic challenges that confront us and that have confronted us over the past two decades. After reviewing the process of education in the Kingdom over the past 30 years, Prince Hassan underlined the need for directing our attention towards quality rather than quantity in education, so that we can handle the economic circumstances in the coming stage and effectively employ manpower at our disposal. Prince Hassan was speaking in the course of his tour of different regions of the Kingdom, in further demonstration of the Jordanian leadership's concern over care that should be given to citizens and their needs, providing for their education and training so that can be useful for their nation. A close study of Jordan's educational process can reveal the fact that this country has made large strides in educating its citizens; but one indeed should not be satisfied with what has been achieved, and should rather seek better quality and seek solutions for problems that the country now confronts. Prince Hassan's tours and his meetings with educationalists in Jordan are aimed at raising the educational level in the country to new heights, capable of providing a better tool for national development and

Al Dustour: King continues peace tour KING Hussein is now on the third leg of his four nation tour, trying to secure greater support for the proposed international conference on the Middle East. The King's talks in Europe are essential in this endeavour specially after European nations have voiced support for the conference. The first positive outcome of the King's current tour in Europe came from Belgium's foreign minister in which he reiterated the European stand vis-a-vis the Arab-Israeli conflict, following a two day meeting by European Community countries foreign Ministers. The statement coincided with a declaration by the Arab League following its council's meeting in Tunis in which Arab foreign ministers urged Arab countries to convene an Arab summit meeting and an international Middle East conference. As the King is spearheading efforts for convening the international conference, Prime Minister Zaid Rifai is holding talks in the United States with American administration officials to persuade them to the need for holding the proposed international conference. Belgium's Foreign Minister Leo Tindemans has announced his intention of touring Middle Eastern countries before the end of this month, in a further manifestation of Europe's deep concern over ending the Arab-Israeli conflict and achieving peace. All these activities point to one direction: That the international conference will eventually be held regardless of present obstacles laid in its path by the United States

Sawt Al Shaab: League calls for summit The Arab League Monday issued a statement which expressed Arab countries support for convening an international conference and efforts being made for holding an Arab summit meeting to secure a consensus on a joint Arab action. The Arab foreign ministers who reached the resolutions at a meeting in Tunis have no doubt benefited from the present favourable international situation, Europe's support for the proposed conference and King Hussein's successful efforts to muster as much backing as possible for the conference. The Arab League's statement showed that the Arab countries have based their resolution on similar ones taken at the Islamic summit in Kuwait, the Brussels declaration and the earlier statements of the Non-aligned Movement. For the first time the Arab League openly condemned Iran's aggression on Iraq and voiced concern over the navigation safety in the Gulf region.

war of the let

Fresh sparks in the Aegean powder kegs

There is age-old hostility between Greece and Turkey over boundaries and possession of more than 3,000 islands in the Aegean Sea. Warlike gestures in the past week or so are explained by Robert Mauthner, recently in the area.

THE clash between Greece and the Aegean, which recently led the two countries to the brink of of a series of long-standing territorial disagreements which have their roots in the break-up of the Ottoman empire.

A tense political climate, fuelled by the Turkish invasion of Cyprus in 1974, the unilateral leclaration of the self-styled Turkish Republic of Northern Cyprus in 1983 and Greece's firm opposition to Turkey's declared intention to become a member of the European Community, has undermined any attempts to find agreed solutions.

The legal and technical argu-ments deployed by both sides have merely become pretexts for fostering a permanent atmosphere of hostility which can be transformed into a conflagration by the merest spark.

Quite apart from the arguments about the continental shelf and territorial waters, Ankara and Athens are locked into constant disputes over air spaces and the militarisation of Greek islands in the Aegean.

When one quarrel is temporarily defused, it is transferred to another issue, making it clear that only a fundamental solution of the major bilateral political problems such as Cyprus can hope to bring any permanent improvement in the atmosphere.

The discovery of oil in the Aegean since the 1970s has added yet another dimension to the

The immediate cause of the latest flare-up is a difference over the validity of the Berne Agreement of 1976, which was concluded by the two countries as a way of putting an end to a previous conflict over oil exploration

The Berne Agreement clearly Turkey over oil-drilling rights in states that "Athens and Ankara undertake to abstain from any initiative or act relating to the military conflict, is only the latest continental shelf of the Aegean Sea which might prejudice negotiations.

> Such discussions on the delimitation of the continental shelf did start but were broken off in 1981 - by the Turks, according to Athens, by Mr. Andreas Papandreou, the Greek prime minister, after the election of his Socialist government in the same year, according to Ankara. As a result, say the Greeks, the Berne Agreement is no longer opera-

> This interpretation has been used by the Greeks as a justification for their resumption of oildrilling and exploration in the north Aegean in what they consider to be their own territorial waters and on their own continental shelf.

> The North Aegean Petroleum Company (NAPC), a Canadianled international consortium, has been producing about 27,000 bar-rels a day, most of it sold to the Greek state, from the Prinos oilfield, west of Thassos, off the northern Greek coast.

Its plans to prospect east of the same island, nearer the Turkish coast, set off a series of events which, typically, were interpreted completely differently by Athens and Ankara.

The Greek government, claiming it was concerned about the company's activities in such a sensitive region for Greek-Turkish relations, over which it wanted to have a veto, tabled a bill which would give it a majority stake in NAPC.

The Turks, on the other hand, saw the move as an escalation of the dispute over drilling rights because nationalisation would give the company the official

backing of the Greek government for its activities.

Not unnaturally, the company also protested vigorously and said it would go ahead regardless with its planned drilling east of

It' was persuaded to change its mind only after the sabre-rattling and the despatch to the area of the Turkish oil research vessel Sismik-1, escorted by an impressive array of warships.

key's deeply-felt dissatisfaction with the existing situation — the result of its defeat in World War I - in which it is hemmed in by a long line of Greek islands just off

Greece claims that the estimated 3,000 islands of the Aegean, all but a small handful of which are Greek, have their own continental shelves and that this is enshrined in the Geneva convention of 1958 and the Law of

The Greeks also claim that they are entitled by international law to extend their territorial limits from six to 12 miles, but have not, so far, attempted to apply this rule.

Ankara refuses to accept that the islands near its coast have their own continental shelf and have not signed the international conventions which Athens has invoked in support of its claims. Recourse to the International Court in The Hague, as the

Greeks have proposed, has been rejected by Ankara because of disagreement over the legal basis on which the submission should be made

It seems highly unlikely, in any case, that a purely legal judgment could satisfactorily solve what is essentially a highly-complicated political problem between two countries which have never been able to overcome their age-old hostility — Financial Times fea-

offer ends rebellion of Nicaraguan Autonomy

By Andrew Selsky The Associated Press

PUERTO CABEZAS, Nicaragua --- An Amnesty and offer of imited autonomy by the leftist Sandinista government has broken the rebellion by Nicaraguan Miskito, Suma and Rama Indian rebels who have been fighting alongside the contras.

Every month, dozens of Indians abandon the rebel ranks, with many going back to their ances-tral villages, according to resi-

Some return because they miss their homes, while others don't see a future in the contra fight. Some say that many of the causes that led them to rebel against the Sandinistas in the first place are

disappearing. port and trading centre 386 kilometres northeast of Man-

At the height of the rebellion, residents say, Sandinista army trucks regularly brought in from the surrounding jungle the bodies of government soldiers killed fighting the Indians in the area.

Now, some of these same Indians, pistols tucked into their policy, defence and law enforce-

waistbands, confidently walk the unpaved streets exchanging greetings with government soldiers strolling by

Under the 1985 general amneslaw, the former rebels are allowed to keep their weapons and are permitted to join the local Sandinista militia, a paramilitary corps that helps the regnlar army fight the contras, the name given to the rebels.

A 15-page draft law proposes

setting up a regional government for the 180,000 Indians, Blacks and Creoles who have traditionally inhabited a 75-mile strip along Nicaragua's Atlantic seaboard, known as the Misquito coast, complete with a regional legislature.

The area has been isolated by virtually roadless jungles for cen-The change is most visible in . turies. The culture of the Atlantic-Puerto Cabezas, a sleepy tropical coast, where English and Indian dialects are the main languages and Protestantism the main religion, has always been separate from Spanish-speaking, Catholic, Western Nicaragua.

The proposed law empowers the regional government to levy taxes and take measures to preserve ethnic cultures but very little else. Economic and political

ment will continue to be handled the central government in Managua, the Nicaraguan

No law is still being discussed by the national assembly and no date has been given for its imple-

sider the autonomy plan a beginning.
The Mosquitia coast, as the

Atlantic region is called, used to stretch halfway into neighbouring Honduras. It was discovered by the British in the 17th century, who set up a local king to rule the

tourist spots where their knowledge of English was an advantage, successive Nicaraguan governments had left the Mosquitia

The Indians, in turn, mostly ignored the central government.
They also ignored the Sandinista revolution that in 1979 overthrew President Anastasio Somoza, a rightist pro-U.S. dictator whose family had ruled Nicaragua for 42

Although not very happy with it, the Indians of the region con-

Britain lost the northern part to Honduras in 1860 and ceded the southern part to Nicaragua in 1895. Currently, the region's population is made up of Misouto. Sumo and Rama Indians, Blacks who fled from slavery on the Caribbean islands offshore, and "Mestizos" or people of mixed race. .

Although many traditionally went to Managua to work in coast Indians alone.

The Indians rebelled in 1981 against efforts by the new Sandi-

nista government to impose Mar-xist neighbourhood defence committee and other regimentation. The elders complained the new policy was undermining their traditional authority.

The Sandinista government, considering the Indians a threat to national security, forcibly resettled thousands of them in "relocation camps" inland. Thousands more fled to join the

Many of those who fled north into Honduras formed Kisan, an organisation which at one time had an estimated 2.500 armed men fighting alongside the Nicaraguan Democratic Force, the biggest contra fighting group.

Those who fled south formed Misursata, another organisation with an estimated 500 fighters that worked with Arde, a smaller contra group with secret bases in Costa Rica.

The Sandinistas began reversing their policy towards the Misquito coast and in 1985 Interior Minister Tomas Borge publicly admitted the government had committed "a grievous error."

Misursata has gradually disappeared and Kisan is said to be down to about 500 men. Neither group has responded to the new autonomy plan.

Reynaldo Reyes, a Miskito Indian, is one of those who has returned, Until October, 1985, he was a Kisan intelligence officer. Now, he said in a recent interview, he is prepared to fight the rebels to defend the autonomy plan, which he calls the only hope for Nicaragua's Indians.

"I'm asking my former comanions to put down their arms and instead to use their brains to discuss the autonomy proposal. Autonomy is the only way that peace can come to the Atlantic coast." he said.

Although he says the proposed autonomy isn't very extensive, Reves claims the Sandinistas have "good intentions" towards the

"A Sandinista autonomy would be better than what we Indians of the coast have had forcenturios; he said. "Before, we were always forgotten and brushed aside by previous governments."

Noting that many Indian tribes in the Americas have been annihilated or have lost their cultribes of the Misquito coast will be assured by law of retaining theirs is a milestone in itself.

"Millions of Indian eyesaround the world will be watching us, to see how effective our autonomy will be." he said.

Reves said Kisan for peage, made up of former rebels allied with the Sandinistas, about 500 armed men who passed the jungle, piney woods and swamplands of the region. Dorotea Wilson, a Mack Sami-

nista and a leader in the region, said the government encourages defecting Kisan fighters to keep their weapons, and will continue to do so after the autonomy statute is signed.

"We do not want them to turn in their arms after the statute becomes law," she said. "We want them to defend their rights. They are indigenous militia."

Queen opens mental health centre

(Continued from page 3)

during the opening ceremony, Dr. Hamzeh expressed appreciation to the Queen for patronising the inauguration of the centre and for her ongoing support to further develop the Kingdom's health services. "This new centre is an actual

response to an urgent need. It is a hospital where all our national efforts will collaborate to offer help to all citizens who need psychiatric care as well as providing treatment and rehabilitation for drug addicts," the minister The hospital's director, Dr.

Ihsan Ra'fat, said the centre represented a "landmark for the development of psychiatric health care in the East Bank of Jordan." Dr. Ra'fat was referring to the Israeli occupation of the West Bank, when the psychiatric hospital in Bethlehem could no longer provide treatment for residents of Jordan's East Bank. Following the 1967 Arab-Israeli war,

the Fuhais hospital was set up. Psychiatric health care, he said. was part of the primary health care programmes. "We look forward to spreading these services to all people throughout the Kingdom. The national hospital and the national committee are at a starting point to achieve a local scheme for psychiatric care under which officials and citizens will join hands," said Dr. Ra'fat, who has been working in this field for

Queen Noor later touted the

hospital's various wards, the three specialised clinics, the laboratory and the units for the treatment of patients through medicine, electrolosis, individual and group therapy, conduct rehabilitation, and vocational and training workshops.

Following the tour, Queen Noor chaired a closed meeting to assess the centre's preliminary performance, the problems facing it and appropriate solutions. In order to overcome a shor-

tage in the number of specialised doctors and psychiatric nurses. the meeting suggested cooperating with concerned international organisations and foreign countries in areas related to training

At the same time, two of the six resident doctors who were sent abroad by the centre for specialisation will be returning in August and September after completing specialised programmes in osychiatry.

In order for the hospital to meet the needs of a full-occupancy, a rough estimate of 30 specialised doctors, 6 psychologists and 40 psychiatry nurses are needed. At present, 16 psychiatrists and 14 resident physicians are working there in addition to 12 registered nurses and 56 auxiliary nurses who are getting in-house training.

However, with the centre's training courses for both doctors and nurses specialising in psychiatry, the problem of such a shortage is expected to be solved

in the coming two to four years. The gathering also focused in means to raise the country's awareness about the centre's services, which are free of charge so all needy patients, and the role of the community in spreading awareness and helping psychiatric patients.

Queen Now suggested the formation of a friends of the NCMH society to gather informa-tion and assist in creating an environment that is conducive to recovery and rehabilitation. The meeting also stressed the importance of maintaining a strong link between treatment, care and rehabilitation inside psychiatric hospitals.

Asked to elaborate on the activitics of the centre's detexisiontion ward, Dr. Ra'sat told the Jordan Times that "drug addiction can be treated and stopped provided the user is totally con-

vinced of the necessity to do so." At present, there are two male addicts receiving treatment at the mait. Names of the patients are withheld and they remain inside the ward for a period ranging between 4 to 6 weeks, after which they discharged. Later they are kept at a schabilitation exist which offers a two-year following for each case. "Accourse, all carriers are found of the course, and the carriers are found of the course, and the carriers are found of the course, and the carriers are found of the carriers are carrie services are free of charge and include periodical visits to the patient's parents, who should be notified about the latest developments regarding their son et. daughter," said Dr. Ra'fat.

Health project for elderly Palestinian refugees in Jordan emphasises traditional family role

UNRWA feature

UNRWA's Health Department is backing a plan to improve the quality of life for elderly Palestine refugees, one third of whom have spent nearly 40 years in camps, waiting for a solution to the

Under the plan, refugees in Jordan will be helped and encouraged to remain active and healthy throughout old age. But the family will remain at the centre of all efforts to assist them.

A project to aid the growing number of older refugees has been drawn up by the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) with the backing of the World Health Organisation and Help Age International.

Dr. Fathi Monsa, senior medical officer for planning and statis-tics at UNRWA is "very optimis-tic" that it will go ahead. He was part of a team of UNRWA and WHO officers and advisers who visited Jordan to investigate the needs of older refugees.

If the project gets underway and proves successful, it could be extended to the other fields in which UNRWA operates: Lebanon, Syrian Arab Republic, the Gaza Strip and the West Bank.

Family is focal point

"The main emphasis is on the role of the family as the focal point of care for the elderly. The mission was completely against institutionalised care," said Dr.

There is an apparent need for

establishment of preventive programmes aiming at maintaining the well-being of physically active elderly and promotion of family care provided to the disabled

"We want to look after those elderly with serious health and social problems but who are mobile and can be helped with the assistance of others.'

UNRWA's health department already provides basic health care for all refugees, young and old. The project is designed to give extra attention to the elderly. It envisages special training for volunteers, family members and social workers in care for the elderly and the setting up of a collection point for aids such as spectacles, hearing aids and wheel chairs.

Once funds have been raised, preliminary work can start possibly this year, allowing the project to get underway properly

Almost 8% over 60

Statistics released by UNRWA show how much such a plan is needed: In 1986, 145,279 refugees or 7.7 per cent of the total Palestine refugee population of 2.1 million were aged over 60. In Jordan 8.1 per cent of refugees — 67,620 out of a population of 826,128 — were over the age of

Dr. Mousa said the agency would continue to give priority to the provision of primary health care — particularly for the highrisk groups comprising children, pregnant women and nursing mothers. But UNRWA was successfully controlling infectious diseases - and if the money was made availble - could afford to give more attention to non-communicable diseases.

These include heart disease, diabetes and conditions such as hypertension which are found amongst the elderly.

"What is needed is a combination of health care, social and recreational activities for the elderly so that they can be as productive as possible and not frustrated," said Dr. Mousa.

"One recommendation made by the team that went to Jordan is that old people could be producing something — such as tradi-tional dresses — which could help preserve the local culture.

The idea is to keep them mobile, productive and not feeling isolated or unwanted in the community or in their families."

Psychological strain

Dr. Mousa said the health problems of old people in the refugee community were similar to those suffered by old people worldwide. "But there is an extra psychological strain relating to their feeling that they were expelled from their homes. This feeling is very strong amongst the elderly because most of them used to work as farmers so they were very much tied to the land."

The older refugees do, however, have one advantage over many old people in the West: "Generally they are treated well because the social structure in the Arab community gives high respect to the elderly," said Dr. Mousa.

Jordan highlighted the plight of older women refugees who, by tradition, are largely restricted to their homes. The mission called for a thorough investigation of this problem.

Other measures called for by

the mission were: More research into the situation of elderly refugees; the setting up of a Disabled Aids Bank for the elderly at Baqa'a Camp, Jordan; training of community nurses in subjects such as geriatric rehabilitation, incontinence and dementia; intensive training workshops for both professionals and volunteers who care for the elderly and the establishment of a volunteer programme to help old

Long-term plan

The mission recommended a long-term plan including recreational activities and more professional services for the elderly. Families caring for old people should be given a short break occasionally while their elderly relatives were looked after by substitute carers.

Existing camp health centres could allocate properly trained staff at specific times to attend to the older generation. A programme to advise and support families caring for older people was re-

Finally, the team sent to Jordan stressed that in all these activities, the wishes of the old people themselves should be aken into consideration.

In 'Working Girls,' the prostitutes are strictly middle class

By Dorene Internicola Reuter

NEW YORK - Filmmaker Lizzie Borden became interested in prostitution when she found that several of her friends in the art world were in "the life."

Her new movie, "Working Girls," suggests that most practitioners of the world's oldest profession are neither high-priced call girls nor street hookers enslaved by pimps and drugs. In fact, that fresh-faced uni-

versity student who lives next door may be working as a prostitute to finance her education.

"The typical prostitute is more. likely to be a student bent on graduate school, or an immigrant waiting for her green card (work permit), or a woman who works for the phone company and got tired of living in a one-room apartment," said Borden.

Borden's real name is Linda but early on people started calling her Lizzie, after the 19th century American axe muderer. "I loved it," she said, "partly because my parents hated it so much."

"Working Girls," which she wrote, directed and edited, dramatises a day in the life of five prostitutes working in a New York brothel.

The film has opened in New York and starts wider release in major U.S. and Western European cities this month.

"The biggest surprise to me was how middle class it was," said Borden, whose research took her to hundreds of brothels.

"It's not all about women being beaten up by pimps, or having to do it because they can't relate to a lover. It's all about money. It's all about a job," she told Reuters in an interview at her spacious Manhattan artist's flat, which also served as the set for her lowbudget movie.

The central character, Molly (Louise Smith), is a composite of the successful middle-class prostitute Borden found. She is cleancut, college-educated, attractive but not astoundingly beautiful. A photographer, she works for the money to mount a show of her

"Most of the women I came across were 'single-time' prosti-tutes," said the 36-year-old filmmaker. "They do it for a year or two, to meet some economic goal, and then they move on." "Working Girls," the brothel is a large, clean, impersonal New York flat. The clients, known as "tricks," come and go. Service is cordial, efficient, and surrounded by hygenic rituals.

The women always use condoms. They're not drug users — the madams make sure of that," Borden said. Between sessions, the girls

send out for food, complain about the boss, and gossip about Borden calls these prostitutes nouveau feminist.

"The women control everything — the time, the space, the kind of sex. The men are a little embarrassed to be there. The women poke fun at them, see them as slightly pathetic."

The men in the movie barely make an impression. The prostitutes reduce them to nicknames, like "fantasy Fred."

"It's the guys who are objectified, not the women," said Borden. "Here's a trick. Then he leaves and it's not about him anymore."

The worst problem facing prostitutes, she said, is not exploitation but detachment.

"They have to detach themselves from their bodies. So some won't kiss tricks, others hate a tongue in their ear. Each designates her private zones."

Before filming "Working Girls," Borden made her actresses go for job interviews in actual brothels - although she didn't insist that they accept the jobs.

"They just didn't have the right perception of the part. They'd come to rehearsal in hot pants and net stockings - tacky, tacky,

tacky." One actress caught on when a real-life madam rejected her for

chewing gum. Borden wanted Lucy (Ellen McElduff), the fortyish, expen-

Leonard wins middleweight | Cup semifinalist Watford boxing title in historic upset

LAS VEGAS, Nevada (AP) — On a magical night in the desert, Sugar Ray Leonard recaptured some of the greatness many had thought was long gone.

as he did before an eye injury prompted retirement, shook off three years of inactivity and dethroned Marvelous Marvin Hag-ler as World Boxing Council middleweight champion.

Never mind that it was a split decision that divided ringsiders as well as judges. The victory Monday night capped an astonishing comeback and firmly established Leonard as one of the sport's leading champions.

'This fight meant the world to me," Leonard said afterward, obviously exhausted after 12 intense rounds. "I did what I was capable of doing. I knew what I was up against but I beat him to the punch.

Leonard built up a big lead in the early rounds, then was able to withstand Hagler's pressing attack in a fight that was boxing's richest ever, attracting 15,366 fans to an outdoor arena at Caesars Palace and several million others who watched on closed-circuit television. Hagler was guaranteed \$12 million,

Leonard \$11 million. It was a fight that showed Leonard close to his vintage best in spurts, but also a fight that many thought Hagler had pulled out by finally slowing Leonard and catching him with some savage combinations in the late

"At the end of the fight he said, 'You beat me,' " said a

Leonard, moving and mugging bitterly disappointed Hagler. "I was so happy, then they took it away. It's hard to believe."

Leonard's camp said he merely said he would always consider Hagler a champion.

Only judge Lou Fillippo agreed with Hagler, scoring the fight 115-113, for the champion. Judge Dave Moretti had Leonard ahead 115-113, while judge Jojo Guerra had Leonard winning 118-110. The Associated Press had Hagler ahead 117-112.

For Leonard it was an especially sweet victory in a fight many thought he couldn't win. A 2.5-1 underdog, he rewrote a page of boxing history by beefing up to 158 pounds and coming back after only one fight in five years to win third world title.

"It wasn't the belt I wanted," Leonard insisted. "It was the fight to beat him. To me, Marvin is still the undisputed middleweight champion."

Leonard, who previous was the undisputed welterweight and WBA junior middleweight champion, is the 10th boxer in history to win three world titles. What made it even more significant is he did it against a dominant middleweight champion who had successfully defended his title 12

Leonard's game plan was nothing that Hagler's camp didn't expect. He made a career based on speed, and even with the heavier weight, his only real

goes down to Rangers

LONDON (R) - Watford, facing an English Football Association (FA) Cup semifinal against Tottenham on Saturday, looked anything but ready when it went down 3-0 at home to Queen's Park Rangers in a league match.

The problem for Watford was again in goal, where substitute keeper Steve Sherwood was at fault on two of the three which Gary Bannister poached for OPR.

Watford's first home league defeat since Sept. 20 came just two days after Sherwood was beaten four times by Charlton in a 4-3 loss on Saturday. He is standing in for first-string goalkeeper Tony Coton, who has a broken thumb which rules him out of Saturday's clash with Spurs at Villa Park.

Sherwood flapped ineffectually at Gavin Peacock's left wing corner after 17 minutes, and when

corner, but in injury time he The Pakistanis are the favourites in the four-nation presented Bannister with his 14th Sharjah tournament which started Thursday with the participation of England, Australia, Sherwood has conceded 13 goals in his four games this India and Pakistan. Two more matches will be played before the winner is selected on a league it for Saturday. It left out David basis, with three games for each Bardsley, one of its heroes in the

> Australia was defeated by both India and Pakistan, while India beat England in the matches played so far

> England is playing without outstanding players as Ian Botham and David Gower.

Both the England and Pakistan teams made one change in the match — Imran Khan replaced Ejaz Faqih and Gladstone Small played in the place of Phil Edmonds. England won the toss and put in Pakistan to bat.

After the loss of two quick wickets for only 11 runs, a third wicket partnership between Rameez Raja and Javed Miandad took Pakistan to 77 runs before Raja was run out.

The fifth wicket partnership of captain Imran Khan and vice captain Javed Miandad was Pakistan's highest contributing 92

Miandad was the highest scorer for Pakistan with 60 runs. The other significant scores in Pakistan's innings 217 for nine were Rameez Raja's 44 and Imran Khan's 46. Ďavid Chappel took three wickets for 38 runs.

SPORTS IN BRIEF

Spanish cyclist takes Basque lead

ZARAUZ, Spain (AP) - Spanish rider Manuel Jorge Dominguez led after the first leg of the 27th Tour of the Basque country cycling race. He finished ahead of Belgium's Frank Hoste and Spaniard Enrique Carrera, covering the 198-kilometre (123-mile) distance in four hours, 57 minutes and 18 seconds. The cyclists encountered head winds and three mountain passes during the first leg on Monday. The second leg will be run between Zarauz and Mungnia, a distance of 166 kilometres (103-miles).

Becker withdraws from WCT tourney

DALLAS (AP) — World Championship Tennis officials say top-seeded Boxis Becker withdrew Tuesday from the 1987 tournament because of a stomach virus and alternate Kevin Curren replaced the West German in the draw. WCT Executive Director Owen Williams said he had not talked to Becker or his manager, Ion Tiriac, directly. But he told the Dallas Times Herald he was informed by the men's pro council Tuesday that Becker had withdrawn and will provide a medical certificate on his condition. Second-seeded Stefan Edberg, who plays eighth-seeded Tim Mayotte to open the finals, becomes the top seed, officials said.

Czech athlete seeks political asylum

WASHINGTON (AP) — A Czech jumper missing since last month's World Indoor Track and Field Championships has defected and is seeking political asylum in the Chicago area, an immigration spokesman said. Jan Cado was reported missing by Czech officials when the team returned from the track event in Indianapolis. A.D. Moyer, the Chicago district director for the Immigration and Naturalisation Service, will consider Cado's request for political asylum, said INS spokesman Verne Jervis. The Indianapolis news quoted unnamed sources as saying that Cado, 24, asked an American he had met at the competition to help him defect. The American drove Cado to the home of a local government official, one source said.

Clemens rejoins Boston club

NEW YORK (R) — Boston Red Sox pitching ace Roger Clemens has rejoined the American League championship team after a 29-day protest over his salary for the 1987 major league baseball season. A Red Sox spokesman said Clemens, 24, who won 24 games and lost just four last year in his second full season while helping the team to its first league title in 11 years, returned to the Red Sox training camp in Florida on Saturday. The spokesman said it was not known when Clemens, a right-hander, would pitch his first game of the season. He said Clemens, who left camp on March 6 when negotiations on a new contract broke down, would play under the terms of his previous agreement while his agent and Red Sox General Manager Lou Gorman "work out a contract that is snitable."

Elton John to keep Watford

WATFORD, England (AP) — Rock music star Elton John plans to keep his controlling interest in the Watford soccer club, a spokeswoman said Tuesday. Sharon O'Connor, press officer for Rocket Records, said John remained "football crazy" and denied reports that he planned to get rid of his £3.5 million (\$5.6 million) stake in the First Division Club. Several London-based national tabloids said Tuesday that the millionaire singer, who has been dogged by personal problems, was to sell his controlling interest to another Watford fan. But O'Connor called the reports "a load of old rubbish." "Football is his second passion to music." she said. "Whenever he goes on tour he spends a fortune ringing in and watching the games."

Liedholm replaced as Milan coach

MILAN, Italy (R) — Nils Liedholm, the Swedish coach who guided AC Milan to the Italian First Division soccer title in 1979, has been replaced by his former deputy Fabio Capello. Liedholm, whose links were Ac Milan go back to his arrival as a star player in 1949, has been made technical manager, the club said in a statement Tuesday. Capello will take charge of the team for the remaining five weeks of the Italian League season. The changes mean Liedholm, 64, will no longer sit on the Milan bench, club sources said. Liedholm was idolised when he played for Milan following his move to Italy. He became known as "Il Conte" (the count) for his clever midfield play and won four championship medals during his Italian playing career from 1949 to 1961.

own corner and flailed away. Europe's big soccer guns prepare for cup competitions semifinals Porto suffered a morale-shak-

LONDON (AP) — Europe's three big club soccer competitions reach the semifinal stage Wednesday night, with some famous names in action and one match generating particularly keen interest.

The Champions Cup clash between Bayern Munich and Real Madrid brings together two of Europe's soccer institutions, each with a history of success that has reaped countless trophies over the past two decades

Real has won the Champions Cup, the premier European club tournament, six times. Bayern has won it on three occasions. Yet it has been 12 years since either team has managed to put its name back on the illustrious trophy, dominated in that time by

Swiss-Arab trade drops

GENEVA (OPECNA) — Swiss exports to Gulf Arab countries dropped 31 per cent in value last year in the wake of falling oil prices, which hit the region's purchasing power, and the appreciation of the Swiss franc against other currencies.

Switzerland sold \$949 million worth of goods to the six-nation Gulf Cooperation Council (GCC) in 1986, compared with sales of \$1.38 billion the previous year.

Over the same period, the European country's imports from the region declined in value by 50 per cent, from \$259 million to \$129

The sharp contraction in trade was a focal point of the 13th annual assembly of the Swiss-Arab chamber of commerce which

The "worries and hopes" affecting the relationship between Europe and the Arab World were outlined by the main guest speaker, Dr. Bishara Kader, director of the Arab Studies Centre at Belgium's Louvain University.

About 130 officials from Swiss and Arab commercial and financial companies, together with diplomatic representatives, attended the gathering.

Money troubles endanger 2,000 Yugoslav companies

BELGRADE (R) — More than 2,000 Yugoslav firms employing almost 600,000 people made losses last year and about 200 could face early liquidation, a member of the presidency of the Confederation of Trade Unions of Yugoslavia (CTUY) said Tues-

The official, Mr. Dusan Kocolievoc, told Reuters the information was presented at a trade union leaders meeting held in Belgrade Monday.

Mr. Kocoljevoc, confirming details of the meeting reported in local newspapers, said 2,306 firms made losses in 1986 and 200 were in "immediate danger of luquidation" because they failed to cover losses going back as far as 1985.

A bankruptcy law is due to come into effect in July under which loss-making firms will have six months to recover their 1986 losses. Such firms will have to reduce their wages to the minimum level and those which fail to recover face liquidation.

Japan's foreign reserves hit record \$58.3 billion

TOKYO (AP) — Japan's foreign reserves registered a record \$58.3 billion at the close of the last fiscal year March 31, more than double from the year before, finance ministry officials said last

An official of the International Finance Bureau, who spoke on condition of anonymity, said the record figure was mainly due to Japan's central bank intervention in exchange markets. The central bank has sold massive amounts of yen to prop up the U.S. dollar

over the past year.

The fiscal 1986 total was an increase of \$30.4 billion, 2.1 currency.

times the fiscal 1985 amount of \$27.9 billion.

The March figure, which was a jump of \$6.6 billion over the previous month, was the 10th consecutive monthly increase, the official said.

The Bank of Japan reportedly bought \$6.4 billion in March to stem the dollar's decline.

Since September 1985, the yen has appreciated by nearly 60 per cent against the dollar, during which the Bank of Japan entered Tokyo and some overseas exchange markets to boost the U.S.

British reserves total \$27b

LONDON (R) — Britain said last week its gold and foreign currency reserves showed their biggest rise last month in almost 10

The treasury said the underlying increase of \$1.78 billion was the largest since October, 1977, when underlying reserves rose \$3.04 billion.

Market forecasts had centred on a rise of about \$650 million. After an annual revaluation of holdings in gold, International Monetary Fund Special Drawing Rights, European Currency Units and convertible currencies, the treasury calculated total reserves at \$27.04 billion.

Economists commented that the pound had been strong recently and also that the Bank of England, the central bank, had been buying dollars, which go into the reserves, to defend the dollar in the currency markets since Feb. 22.

This was under an agreement in Paris to stabilise currencies reached by finance ministers of the United States, Japan, West Germany, France, Britain and Canada.

The huge holdings also mean that the Bank of England now has substantial resources to draw on to defend the pound in the

currency markets, where it has weakened again recently. "It does mean he (Chancellor of the Exchequer Nigel Lawson) has a lot more ammunition to defend the currency," said Mr.

Gavyn Davies, economist at Goldman Sachs International. He said that the timing of comments by Mr. Lawson that he wanted to hold the pound about 2.90 marks and \$1.60 was probably influenced by knowledge of the reserves figures.

Incomes decline in many countries

WASHINGTON (AP) — Many of the world's poorest countries have been getting poorer and some of the rich ones have too, according to figures made public by the World Bank.

Representatives of the 151 governments that own the bank and its sister organisation, the International Monetary Fund, opened a week of meetings at the fund's headquarters Monday.

The bank at the same time released the 1987 World Bank Atlas, which brings its income figures up to date through 1985.

It shows 2.3 billion peoeple, nearly half the population of the world, living in 35 countries where the average income per person was \$400 a year or less. India, with a population of 765 million, had a per capita income of \$250 in 1985. That figure represents an increase of 44 per cent since 1973. The traditionally prosperous industrial countries continued to

do well. The average American's income rose from \$15,540 in 1984 to \$16,400 in 1985. The average, Japanese income went up to \$11,330 from \$10,650.

But South Africa had a drop of four per cent, and Irish incomes fell slightly as well, from \$4,980 to \$4,840.

In West Germany, the average income rose by 2.4 per cent in domestic terms. But translatedinto terms of the U.S. dollar, which was comparatively high that year, there was a decline expectionally high rate of 5.6

from \$11,160 to \$10,940. Since per cent a year since 1973. then, the price of the dollar has dropped considerably and the next West German figure should show an increase in dollar terms.

Among the countries that have grown poorer is Jamaica, where the average citizen earns \$710 a vear. The Jamaican income figure has been going down by 3.5 per cent a year since 1973.

Income declines have been experienced by 36 countries, nearly all in Africa and Latin

In most communist-ruled countries the bank says it does not have a data available.

In China, the average income is \$310 a year for a population of 1.04 billion. According to the figures the Chinese government has given the bank, average in-

In many countries which have seen declines, things got worse between 1984 and 1985. Argentina, for example, where the drop averaged two per cent a year

between 1973 and 1985, saw a decline of 5.3 per cent in the last of those years. Ethiopia is one of the poorest countries of all, with an average incoeme of only \$110. That had

been declining at a rate of 0.4 per cent a year. In 1985, the decline was 7.6 per cent. The drop in the price of oil hit

some Middle East countries hard: The living standard of the average Saudi Arabian had been rising modestly over the years. In 1985, it dropped from \$10,980 to \$8,860. In Kuwait the average declined from \$16,720 to \$14,270. In these countries, much of the oil income is received and spent

by governments on public ser-

Poland to privatise state companies; Castro ridicules free market forces

STOCKHOLM (R) - Poland will soon offer shares to private. citizens in several state companies under major reforms to rejuvenate its socialist economy, and it might even open a stock exchange one day, a Polish offi-

cial said Monday.

The economy had to be made more responsive to marketforces, chief Polish government spokesman, Mr. Jerzy Urban, told a news conference in Stock-

Mr. Urban said that under reforms to be unveiled in a few weeks' time, "the whole leadership of the Polish economy and its management methods will be replaced.

Private individuals would be offered shares in state firms to stimulate a new entrepreneurship, and state subsidies to industry would be cut by 15 per cent this budget year to force mefficient enterprises into bank-

Asked whether the share offerings meant Poland planned to start a fully-fledged stock exchange, Mr. Urban replied:

market like London's have not been included in existing projects, but if there is a demand for it and if it proves necessary or suitable for the good of the Polish economy, we would not refrain

from it. There were "no doctrinaire barriers standing in the way of working out new motors of economic change," Mr. Urban said. The essence of the reforms was to base the Polish economy on the rational rules of the market."

He gave no examples of which state companies might end up being coowned by private indi-viduals, but said no branch of the economy would be excluded from the reforms.

"This definitely means stepping out of the system of central--subsidised industry," he said. We shall try to cut subsidies by 15 per cent this year ... so that the outdated and unprofitable parts of industry go bankrupt."

Mr. Urban said the planned Polish measures were convergent with reforms in the Soviet Union under Soviet leader, Mr. Mikhail

ture cooperation between two similar economies easier in fu-

He was asked if the conversion to a market economy would not represent an ideological setback for Poland's communist leaders. "The role of socialism is to distribute prosperity - not

poverty," he said. Mr. Urban said the government should in future stop managing enterprises and concentrate on conducting economic policy instead - "we want to destroy all

the corsets to economic growth." But he expected resistance to reform, saying that a conservative apparatus was on principle opposed to privatisation, whatever benefits it offered. "Managers cannot have their habits and ways

of thinking changed overnight." "We know economic reforms must be coordinated with political ones although Polish society is at present far more interested in material living standards than in politics," he said, stressing that any political reform had to be

U.N. report describes Africa's 1986

Mr. Urban said the Roman Catholic church leadership in Poland would be one of the interested parties consulted on the reforms, some which will then be submitted to parliament for approval.

Regarding the same subject, President Fidel Castro Monday said the market economy mechanisms being used in some other communist countries were not valid for Cuba and he criticised consumerism.

"Profits, profits, profits what has that got to do with the revolution?" he asked the union of young communists in his closing speech at the end of its five-day congress.

President Castro characterised as "idyllic and stupid" the belief that economic mechanisms based on monetary incentives and profitability of state enterprises could do the work of the Communist Party in building socialism and stimulating development.

He also said economically advanced countries could not be models for poorer Third World

Lufthansa buys 2 Airbus planes

COLOGNE, West Germany (AP) — The West German airline. Lufthansa, has placed orders for two A310-300 jets from the European aircraft consortium Airbus Industrie, a company statement said last week. Lafthansa gave no price for the purchase, saying that replacement parts orders and exact specifications remained to be set. The new orders will bring to 34 the number of A300 and A310 aircraft in Lufthansa's fleet. Deliveries are scheduled for late 1988 and early 1989. Airbus is a joint venture between Messerschmitt-Boelkow-Blohm of West Germany, Aerospatiale of France, Casa of Spain and British Aeros-

ne to a growth. United Nations report made pub-

lic Tuesday. The report, prepared by the U.N. Economic Commission for Africa and the African Development Bank said: "Despite the determination by African countries to undertake policy and institutional reforms, the economic growth for the region was disappointing in 1986. The combined gross domestic product in real terms increased by only 1.2 per cent." Performances varied consider-

ably, with oil exporting countries experiencing a decline of 0.3 per

ADDIS ABABA (R) - Africa's cent in their gross domestic pro- markets for Africa's primary economic performance in 1986 duct (GDP) and non-oil expor- commodities. was disappointing and prospects ters recording four-per-cent

> The continent's inflation rate rose to 9.8 per cent last year from 8.9 in 1985, the report said. Agricultural output increased three per cent because of good weather and improved incentive schemes, and manufacturing im-

proved by four per cent.

The decline in oil prices and falling world demand for minerals last year led to an estimated 28.7 per cent fall in export earnings, turning a \$5.9 billion surplus in 1985 into a \$7.1 billion deficit in

The report said prospects for 1987 were bleak with depressed

economic performance as disappointing

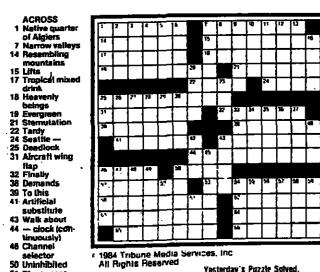

"Trade and current account though beloew 1986 levels. The volume of net resources and inflows is expected to stagnate at 1986 level," it said.

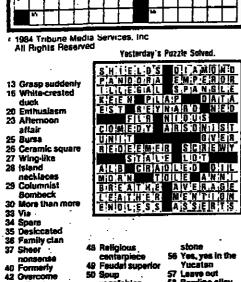

Agricultural output would grow again this year and the manufacturing sector would be hampered by shortages of imported raw materials, the report

It advised African governments to curb increases in public spend-ing and subsidies to public enterprises, noting that rapid growth in subsidies and public spending had not brought in enough cash and often led to deficits.

process so that big success is attainable. Give as fine an education as you can.

against the two Lees, who they strong opposition," said Kim chreed had undermined the party's strategy on constitutional amendments.

The trouble worsened Saturday when some 300 supporters of Lee Taek-Hee began a sit-in at the party's headquarters in downtown Seoul, demanding that the two Kims stop "meddling" in party affairs and retire from poli-

Mr. Lee sought a court injunction to bar Kim Young-Sam from interfering in party affairs, charg-ing that the 59-year party adviser had collected a large sum of money from political aspirants for the 1985 parliamentary elections.

The two Kims charges that the current trouble was part of a government manoeuvre to defame the NKDP and block its national convention, scheduled

"This is none other than a government intelligence scheme favours the ruling camp.

Young-Sam, who reportedly is seeking the party presidency at the May convention.

"We have no choice but to secede from the NKDP because the May convention is realistically impossible to convene," said one source close to Kim who declined to be named,

The emergence of a new harder line political party led by the two Kims could have a significant impact on South Korea's current political impasse caused by two conflicting plans for a constitutional amendment on presidential

President Chun's ruling party favours a parliamentary-cabinet system with a strong prime minister and a largely ceremonial head of state, while the two Kims advocate a direct, popular election of the president, arguing that the cabinet system heavily

Thatcher: Gorbachev sincere in wanting Afghan pullout

LONDON (R) - British Prime talks Monday that the war, which Minister Margaret Thatcher has said she believes Soviet leader Mikhail Gorbachev is sincere in saying he wants to pull his country's troops out of Afghanistan. Mrs. Thatcher, speaking at a

dinner on Monday night for visiting Pakistani Prime Minister Mohammad Khan Junejo, said she based her impression on talks she had last week in Moscow with the Kremlin leader. But the Soviet Union, she said,

did not appear ready to take the necessary steps to withdraw its troops, estimated by Western experts to number about 115,000. The Afghan issue has become the focal point of Mr. Junejo's eight-day visit to Britain. Pakistan, home to three million Afghan refugees, supports Afghan guerrillas fighting the Communist Kabul government and the Soviet troops.

began after the Soviet intervention in 1979, would not end until Moscow allowed Afghanistan to have a non-aligned government. Meanwhile, the leader of Afgha-

nistan's ruling Communist Party Monday invited rebels to join a Kabul Radio reported. The radio, monitored in Isla-

mabad, quoted party leader Najib as saying a draft of the new constitution contained principle of national reconciliation and a programme for peace.

Addressing a constitutional commission, he asked it to organise a national debate on the

Meanwhile a prominent member of Congress Monday proposed that the United States levy a service fee on allied exports to help pay for the defence of Western Europe and Japan.

Representative Patricia Schroeder, a senior member on the House of Representatives Armed Services Committee, suggested as an example a six per cent surcharge on imported a shrinking foreign aid programme onto Israel, which now gets Japanese Subaru cars.

Pope, in Argentina, praises new democracy

(AP) — Pope John Paul II praised Argentina's newly restored democracy and said the country was living "a privileged moment.

But the Pope also brought up the spectre of this country's political repression in the 1970s, saying authorities are obliged to promote human rights despite situations of extreme difficulties, avoiding the frequent temptation of answering violence with

Pope John Paul arrived Monday after a violence-marred, six-

BUENOS AIRES, Argentina day tour of Chile. It is the second time the Pontiff has visited this nation of 31 million since he became head of the world's 840 million Roman Catholics.

The Pope told President Raul Alfonsin and political leaders at the government house the country was on the road to recovery. "You have the vigour of a

young nation that has accummulated a rich historical experience," the Pope said, alluding to the return to democracy in 1983 after seven years of military rule. "This is a privileged moment for the country."

Jakarta calls for military alertness in poll campaign

JAKARTA (R) — Indonesian Armed Forces Chief General Benny Murdani has told top military commanders to step up alertness for extremist threats while working for the success of elections later this month, it was reported Tuesday.

The military chiefs are holding a top-level meeting in Jakarta to review how programmes to boost efficiency and preparedness of the 280,000-strong military were being implemented, an armed forces spokesman Tuesday told

The meeting is being held in the middle of election campaigning across Indonesia, a giant archipelago of 168 million people which lies between the Pacific and Indian Oceans.

At the opening of the conference Monday, Gen. Murdani spelt out six objectives for the military during the year, including maintaining security and ensuring the success of the parliamentary elections which will be held on April 23, the armed forces newspaper Angkatan Bersenjata reported Tuesday.

The armed forces have played a major role in governing Indonesia since helping to achieve independence from the Dutch after

and extremist groups from both left and right, the paper said. In a separate speech on Saturday to officials on a national defence course, Gen. Murdani said that in view of the upheavals

Gen. Murdani said the armed

the latent dangers of Communism,

the World War II.

which threatened the country's unity after a 1965 Communist coup attempt, it was clear Indonesia did not just need a military for national defence, but armed forces which could face domestic threats as well.

Indonesia's armed forces are in the middle of a major restructuring designed to increase efficiency, slim down command structures and bring younger men into top posts.

The election is for 400 seats in the 500-member National Assembly. The other 100 seats are reserved for military appointees. President Suharto's ruling Golkar Party is expected to win 70 per cent of the vote.

The campaign has been marked by calls for greater student rights and more political freedom in this carefully-controlled South-East Asian state.

200 Sikhs arrested after attacks on Punjab stores NEW DELHI (R) — Punjab

police have arrested more than 200 Sikh fundamentalist youths after crowds sacked stores selling liquor, cigarettes and meat, the United News of India reported. The arrests Monday were a

preventive measure after more than 15 liquor, cigarette and meat Ribeiro was quoted as saying by the news agency.

He did not say how many actual attackers had been from Chandigarh on Sunday.

arrested but said the police offen
Mr. Ribeiro says police will sive was not completed. Sikhs consider liquor,

cigarettes and meat scarilegious. Barber shops also have been burned in the latest round of attacks, as the Sikh faith forbids the cutting of hair or beards. The attacks were the part of the latest terror campaign by Sikh separatists to drive Hindus from the Sikh-majority state. Killings by suspected terrorists have become a regular occurrence.

The Punjab government cur-

rently is trying to woo back hun-dreds of Hindu families who have fled because of the increase in terrorist attacks. "The use of violence against

new groups (liquor vendors) could lead to a fresh wave of migration from Punjab." the Hindu newspaper reported Monday. Punjab Police Chief Julius and liquor shops already have closed in rural Punjab, where liquor trade is a major revenue earner, the Telegraph reported

shoot shop attackers on sight and extra security will be provided to more than 2,300 liquor shops.

The Punjab government earned more than \$1.9 million from taxes on liquor sales last year, the Sunday Mail reported. In a separate development the Indian government appointed a commission Monday to investigate the use of a U.S. detective agency to look into foreign financial holdings of prominent. In-

France's 'red billionaire' dies

PARIS (R) — Jean-Baptiste Doumeng, a French Communist who built a vast fortune trading agricultural products with the Soviet Bloc, has died after a long illness, aged 67.

Indonesian plane 'hit by down draft' before crash

sian airliner that plunged onto a said. runway killing 28 people was hit by a sudden down draft in a thunderstorm and had defective controls, the Transport Ministry said Tuesday.

Garuda Indonesia Airline President Reyn Lumenta told newsmen earlier that his company's plane had been hit by lightning as it was preparing to land at Polonia International Airport in Medan, north Sumatra, last Saturday.

· A ministry statement distributed to newsmen did not mention lightning, and quoted the pilot of the doomed DC-9 airliner as saying the plane suddenly lost altitude in a "down draft," within sight of the runway.

Pilot Sumirat, who was interviewed at his hospital bed by Transport Minister Rusmin Nurjadin on Sunday, said the plane's pitch, yaw and roll controls would not work when he tried to take

JAKARTA (R) - An Indone- corrective action, the ministry

The plane, carrying 37 passengers and eight crew on a flight from Banda Aceh in northern Sumatra, then ploughed into high-voltage power lines dragging behind it a one-tonne power transformer and cables, the statement said.

The plane veered into a canal embankment, sheered off a wing, and tumbled onto the airfield in an explosive ball of fire, the statement said.

Mr. Nurjadin told newsmen that an investigation team from the Civil Air Transportation Division and the National Intelligence Agency had not concluded a probe. He said reports on what caused the crash would be "pure

conjecture" at this point.

Lumenta on Sunday quoted a transcript of the pilot's last message to the airport control tower as saying: "I have been hit by lightning and losing altitude."

American wins Hemingway prize

PARIS (R) - American novelist and short-story writer Peter Taylor was named winner of the \$50,000 Ritz Paris Hemingway Award — one of the literary world's richest awards. Taylor won for his novel A Summons To Memphis, judged the best novel published in English last year by a 10-man international panel of authors. Other finalists for the prize were Austrian Peter Handke's Across and Canadian Margaret Atwood's The Handmaid's Tale. Jury-member William Styron, author of Sophie's Choice, said of Taylor: "He's one of our best writers, but one of the lesser-known ones. He deserves to be better known and we hope this prize will help with that." Taylor, 70, was born in Tennessee and has spent most of his life as a university literature professor. Since 1967 he was taught at the University of Virginia in Charlottesville.

Treasures from countess' villa auctioned

FLORENCE, Italy (AP) - Sotheby's began auctioning the arts works and furnishings from the late American countess Mona Bismarck's villa on the fashionable island of Capri. The auction of some 900 pieces began on schedule after a last minute go-ahead from the Italian Culture Ministry. Earlier, Italian authorities had threatened to block the sale on grounds that the villa was a national monument. In the first two sessions, total sales reached a figure of about 1.68 billion lire (\$1.3 million), said Sotheby's spokesman Lucian Comoy. Among the items auctioned in the first sessions were a pair of Chinese paintings that went for 185 million lire (\$142,000), Comoy said. Other items up for sale were two giant paintings by the Spanish artist Jose Maria Sert, French and Italian furniture, silverware, carpets, "Even pots and pans," he said. The countess, who died in Paris in 1984 at the age of 84, began visiting Capri, an island in the Bay of Naples, in the 1930s. Her third husband, U.S. industrialist Harrison Williams, built for her "Villa Fortino" on the scenic site where Emperor Tiberius had a palace overlooking the sea.

Fire sweeps through famous brewery

MUNICH, West Germany (R) - More than 150 firemen fought to control a huge fire at the brewery which serves Munich's world-famous Hofbraeuhaus Beer Hall. City officials said the blaze started in a former malthouse and tore through the four-storey 19th century building, made almost entirely of wood. Three firemen were reported injured fightig the blaze, which also destroyed a restaurant in the complex. The Bavarian state-owned brewery is located in the city centre but is about two kilometres from the Hofbraeuuhaus, famous for its annual Oktoberfest Beer Festival. Police in loudspeaker vans toured the area where the brewery is sited advising residents to stay indoors and close windows to avoid inhaling fumes.

WHO employees smash ashtrays

GENEVA (R) — Employees of the World Health Organisation (WHO) smashed ashtrays at a ceremony marking the start of a ban on smoking at WHO headquarters. The ban went into effect Tuesday, the annual celebration of World Health Day. Dr. Halfdan Mahler, director-geeral of WHO, told a crowd of about 100 employees at a brief ceremony: "As the world's conscience on health, we have decided to give a small example." Dr. Mahler said about 1.5 million people die of smoking-related causes every year, including 500,000 in the United States, an estimate he said he considered conservative. There would be no sanctions against those of WHO's 1,300 employees who defied the ban, he added.

Bald people apply for hair-restoring test

ROTTERDAM (R) — Thousands of bald Dutchmen have rushed to join a hospital's tests on a hair restorer but most will be disappointed because only 200 will be chosen to smear the gel on their heads, hospital officials have said. They said doctors were amazed when about 8,000 men answered their request for human guinea pigs aged 18 to 49 to take part in the experiment on a drug that reduces blood pressure and appears to stimulate hair growth as a side effect.

Specialist pinpoints cardiac dangers

LUND, Sweden (R) — Keeping fit, eating well and banning cigarettes may not be the only vital facors in preventing a heart attack, according to a report published by a Swedish cardiac specialist. John Franzen, heart specialist in this southern Swedish university town, said he had pinpointed a lack of high density ipoprotein (HDL), a natural defence against sclerosis, to be equally crucial to the incidence of cardiac illness. Franzen said the traditional approach to curing heart disease was to reduce cholesterol in the blood but that medication which increased HDL levels would be an equally effective measure. He said he had drawn his conclusions after studies of 270 heart attack patients over a period of five years. HDL "mops up" excess cholesterol. which is produced by a surfeit of fatty foods and lack of exercise, Franzen said. A medical team in the western city of Gothenburg last week said they had isolated two genes that were keys to the hereditary development of heart disease, the firt step towards developing a new range of preventive medication.

5 royal cousins entered mental hospital

LONDON (R) — Five of Queen Elizabeth's cousins were admitted to a mental hospital outside London in 1941 and three of them are still alive, according to health officials. A hospital spokeswoman on Monday said one of the British monarch's first cousins, listed as dead since 1963 in a guide to the British aristocracy, was in the Royal Earlswood Hospital in the county of Surrey, south west of London. The woman, Katherine Bowes-Lyon, 60, is a niece of Queen Mother Elizabeth, whose maiden name was Bowes-Lyon. Katherine's sister, Nerissa, died in the same government-owned hospital last year, aged 67. The Queen Mother, president of the Royal Society for Mentally Handicapped Children and Adults (MENCAP), found out five years ago that her two nieces were alive, MENCAP General Secretary Sir Brian Rix said. He told reporters the Queen Mother had believed both sisters were dead. On learning the truth, she was "very supportive and has been supportive ever since," he added. A Surrey health authority spokesman told reporters that three others sisters. Queen Elizabeth's second cousins, were admitted to the hospital at the same time as the Bowes-Lyon sisters. Two, Etheldreda Fane, 64, and Idonea Fane, 72, were sharing the same ward as Katherine Bowes-Lyon. The spokesman said the sisters "are aware of a long kinship, but they have a mental age of young children and a memory that comes and goes." The third sister, Rosemary Fane, died in 1972. Soldiers re-create battle of Shiloh

SHILOH, Tennessee (AP) - The echo of musket fire swept across

rolling fields as 6,000 civil war buffs transformed into civil war soldiers staged a remake of one of the blodiest battles on American soil. About 40,000 spectators paid \$3 a head to watch the show, the reenactment of a two-day fight 125 years ago. The real battle began on April 6, 1862, when 40,000 Confederate troops led by Gen. Albert Sidney Johnson surprised an equal: number of Union soldiers under the command of Gen. Ulysses S. Grant. By the time the battle ended, more than 100,000 men had joined the fight, and 23,000 of them were killed or wounded. At the time it was the largest battle fought in the United States. The civil war was fought after the South seceded from the nation, in response to various issues including a federal mandate to end the enslavement of blacks. Sunday's event was organised by the Shiloh Reenactment Association Inc., which said requirements for proper period dress and weapons were strictly enforced. The soldiers, wearing replicas of civil war uniforms, were armed with 1860s-era weapons or replicas. Cavalrymen provided their own mounts. Reenactment organisers had to deal with matters more mundane than combat, such as parking and traffic control.
